SUMMARY

2-year experienced cybersecurity talent with a passion for tackling complex security challenges. Proven ability to lead and execute projects, resolve issues, and collaborate across teams. Proficient in leveraging advanced technologies to fortify defenses and streamline operations. Seeking a dynamic role to apply expertise in designing and implementing innovative security solutions, ensuring optimal protection against cyber threats.

WORK EXPERIENCE

Senior Penetration Tester, Intertek NTA Jun 2023 - May 2025

- Conducted testing including Network (External & Internal), Web, APIs, PCI DSS, Mobile Pentesting, and Vulnerability Assessments.
- Coordinated testing and validation, ensuring compliance with industry standards.
- Provided technical expertise to 50+ clients per year, resulting in a 20% sales increase compared to the previous year.

Network Security Engineer, LinkAxia Networks Jan 2022 - Apr 2022

- Involved in a team managing Extreme Networks products, performed network design, deployment, administration, and troubleshooting.
- Installed and maintained 50+ networking products either in-house or third parties.
- Performed technical support/helpdesk either physically or remotely if needed.

EDUCATION

Bachelor of Computer Science (Cyber Security) with Honours Feb 2020 - Jul 2023

Asia Pacific University of Technology and Innovation (APU)

- Relevant coursework in Computer Security Fundamentals and Project Management.
- Major in Vulnerability Assessment and Penetration Testing with CGPA 3.79.
- Part of the Forensic & Security Research Centre (Student Section) Club Committee.
- Conducted 3 workshops, and created 10+ CTF challenges for nurturing the future generations.
 - 1 Red Team Workshop: "HAVOC 101".
 - 2 CTF Workshops (Beginner & Intermediate).

ADDITIONAL INFORMATION

- **Awards:** Best Student awards in APU, Malaysia Cyber Camp 2022 Participant, M53 Member.
- **Certifications:** OSCP, CREST CRT, CREST CPSA, CRTL, CRTO, PNPT.
- **CTF Results:** TOP 5 in ACS Hacking Contest 2023 (Korea), Champion in UTAR-FICT CTF 2023 and PETRONAS CTF 2023, 2nd place in SIBER SIAGA Code Combat 2023.
- **Languages:** English, Mandarin, Malay, Japanese.
- **Programming Languages:** Python, HTML, CSS, JS, LaTeX, Bash, PowerShell, C++.
- **Technical Skills:** VAPT, Red Team Engagement, Cryptography, Web Applications, APIs, Mobile Security.
- **Tools:** Burp Suite Pro, Nessus, NMAP, GitHub Tools.
